Jail DEPARTMENT.

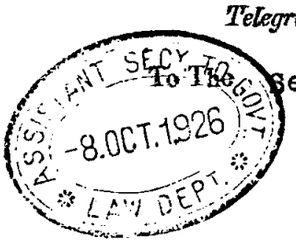
Received Registered K. 55799C - 87/26

From (Name) Lieut-Col. J.P.Cameron, C.I.E., I.M.S.,

(Designation) Inspector-General of Prisons,

Post Box ....., (Station) Ootacamund.

Telegraphic Address .....



To The Secretary to Government,

Law(General) Department, Madras.

No. G. 853. dated 5th October 1926.

Sir,

Buildings - Bellary- Indian Station Hospital Buildings - Conversion into a Tuberculosis Jail.

....

I have the honour to invite a reference to my letter No.G.863 dated 7th October 1924, from which it will be seen that certain items were excluded temporarily from the estimate for the above work owing to financial considerations.

2. The Superintendent, Alipuram Jail now reports, in his letter No.J.1620 dated 16th September 1926 (copy enclose that provision for iron gratings round the verandahs of the proposed Tubercular Hospital, which was one of the items excluded, is absolutely essential for purposes of security and must of necessity be provided for before the wards can be occupied by prisoners. I agree, and am at a loss to know how this item came to be excluded, as it undoubtedly forms the essence of the whole scheme. The expenditure on this item of work is reported to be Rs.10,000/-

3. It is therefore requested that the Government will be pleased to sanction the execution of this particular work during the current year from the allotment of Rs.1,00,000 sanctioned for the work during 1926-27. The Superintending Engineer, Madras Circle reports that a sum of Rs.50000/- is available for surrender.

Copy of letter No.J.1620 dated 16th September 1926 from the Superintendent, Alipuram Jail, Bellary Cantt.

....

Ref:- This office letter Nos. J.2340 dated 25-7-1924 and J.3128 dated 3-10-1924 and Head Office No.9712 dated the 20th September 1924.

....

I have the honour to report that in the above quoted correspondence, Mr.Snow, Acting Superintendent recommended that the Iron Gratings round the verandahs of the Indian Hospital Tubercular Hospital recommended by me and confirmed by you should be omitted from the scheme. This recommendation was accepted by the Acting Inspector-General of Prisons, Colonel Machonachie, and the present Government administrative sanction to the estimate is accorded to that revised scheme and they do not contemplate the provision of these Iron Gratings.

In my opinion the provision of these gratings is the essence of the whole scheme and they must be the first work completed as when these are secure we can at once confine a certain number in the wards to get on with the other works. I am unable to understand why this omission was suggested unless the use of the Belchain was contemplated.

I shall be glad if you will at once approach Government to accord sanction to an additional expenditure of Rs.10,000/- for this purpose. A sum of Rs.8500/- has already been approved for alterations and repairs to the Indian Station Hospitalwhereas the estimate including barring is Rs.18,700/-

The estimates will be held up if this approval is not accorded and I would request that an urgent reference may be made to Government and the Superintending Engineer may be requested to provisionally sanction the estimate.

G. Rambrowmi Jee.

For Inspector-General of Prisons.

Law (General) Dept

Conversion of the Indian Station Hospital Buildings into a tuberculosis ja

CNo. 5799 J. From the Is. of Prisons no. G853 dy 5.10.26

U.S.

(T) In Go no. 541 W dy 15.5.26, the Govt sanctioned an approximate expenditure of Rs 1,22,970/- on the Conversi of the Indian Station Hospital buildi into a tuberculosis jail. This estima does not make any provision for iron gratings round the verandahs of the proposed tubercular hospita The I.G. Considers that the provisio of these iron gratings is absolutely essential for purposes of security and that it should be completed before the wards can actually be occupied by the prisoners. The cost is estimated at Rs 10 ons/-. and the Is. suggests that this particular item of work may be executed during the current year from the allotment of Rs 1,00,000/- sanctioned for the Scheme.

2. Provision of iron gratings round the verandahs was one of the items of

work included in the original scheme.
which was estimated to Cost Rs 2, 10,000/
Bout in view of the financial Condition
the estimate was reduced to Rs 1, 22, 790
The provision of iron gratings was one
of the items excluded from the revised
estimate.

Finance (Exp.)

The proposed provision of iron gratings round the verandals of the Tuberculosis jail now under Construction a Bellary is only a deviation from the origina estimates for the work which has already bee approved by the Finance Committee. The present proposal therefore need not be placed before the Finance Committee.

2 The I.G. says that the expenditu of Rs 10,000 can be met from the provision of Rs 1 lakh made in the current year's budget for the construction of the tuberculo jail at Bellary

3 Submitted that this departm may accept the proposal. The draft ord may be accepted.
